FOR FAMILY HOME VISITING

MINNESOTA COALITION FOR FAMILY HOME VISITING
Family Home Visiting Directory

The 2023 Minnesota Home Visiting Directory was prepared by the Minnesota Coalition for Family Home Visiting and features various local public health, tribal health, nonprofit, early childhood family education, early head start, and community-based home visiting programs and organizations across the state of Minnesota.

This is not an exhaustive list but a tool to support families and their home visitors locate and contact home visiting services, no matter where they live in Minnesota. We hope the 2023 Minnesota Home Visiting Directory improves the experience of families looking to access home visiting by making it more convenient to search for services by county or program type. This partnership is intended to help home visitors to make warm handoffs to families as they move across county lines and or graduate programs.

If you would like to add your home visiting program to the directory, or if you would like to update your entry, [please fill out this form!](#)
